

August Safety Safe & Sound

Inspect the workplace for safety hazards

Conduct regular inspections of all operations, equipment, work areas and facilities. Be sure to document inspections so you can later verify that hazardous conditions are corrected. Regularly inspect forklifts/powered industrial trucks and transportation vehicles.

Use checklists that highlight the following:

Identify *chemical hazards*

- General housekeeping
- Slip, trip, and fall hazards
- Electrical hazards

Identify *physical hazards*

- Equipment operation
- Equipment maintenance

Identify *biological hazards*

- Fire protection
- Work practices
- Workplace violence

Identify *ergonomic risk factors*

- Ergonomic problems
- Lack of emergency procedures
