

# April Safety

## Motorcycles & ATVs

### Riders

- ⊗ Always ride safely, within your skill level
- ⊗ Do not ride up between lanes at a red light
- ⊗ PPE? Wear all the gear-all the time
- ⊗ Plan your ride and perform your TCLOCS inspection prior to leaving
- ⊗ Be prepared for weather changes and roadside repairs
- ⊗ Take advantage of training and refresh your skills often
- ⊗ Keep ATVs off roadways

### Non-Riders

- ⊗ Look out for motorcycles, especially when pulling into traffic
- ⊗ Riders in a traffic lane own the whole lane. Don't merge into their lane because you "see room" for your vehicle
- ⊗ Leave room behind a stopped motorcycle at a red light
