OBJECTIVE

The Recruiting Team would like to extend our sincere gratitude and appreciation for volunteering your time to help our state's recruiting efforts. To start, please download and utilize the AF Connect app on your phone/tablet. This application enables you to reach out to potential applicants by giving them basic information about the SCANG such as benefits, incentives, College Assistance, etc. The application also gives the applicant the ability to input their contact information, which is sent directly to the Recruiting Staff. A SCANG information packet is available for reference in the Recruiting & Retention tab of the app to assist you with any questions or concerns. This can also be emailed directly to people of interest. To ensure we provide the best customer service, please refer all in-depth questions pertaining to qualification of service, etc., directly to the Recruiting Team.

DO'S

- Think outside of the box when seeking potential applicants
- Reach out to local high schools, technical schools, local colleges, and businesses by leaving business cards and information packets, followed by an amazing impression
- Think about how both the applicant and the unit can benefit
- Reach out to friends, coaches, counselors, teachers, or anyone who may have the ability to put us in front of others that could benefit
- Familiarize yourself with the SCANG Information Packet and the AF Connect App

DON'TS

- Do not qualify or disqualify anyone, leave that to the experts
- Do not promise anyone a bonus (bonuses are based on date of enlistment)
- Do not talk about specific job openings
- Do not talk about basic training or tech school dates
- **Do not promise a potential applicant anything!**
